PROGNOSTICATION.

for the Year of our

L O R D G O D
1 6 9 8.

Wherein we have a Tide-Table, the time
of the Eclipses for this Year, with divers Obser-
vations for Physick, Husbandry and Gardening :
and also for the making of all sorts of Bonds, Bills,
Acquittances, Wills, and Indemnities.

With a Description of the High-ways and Fairs
throughout ENGLAND.

Calculated for the Meridian of *King's-Lyn*,
where the North-Pole is elevated 53 degrees,
43 Minutes above the Horizon, and may
indifferently serve any other place
within the Realm of

ENGLAND.

C A M B R I D G E,

Printed by *John Hayes*, Printer to the
University, 1698.

By the help of two following Tables, you may readily find the time of full Sea, or High-water at any of the Havens under-named without any notable Error; Except the Moons Latitude, Land-floods, Contrary Winds, &c. somewhat alter the time.

The first sheweth the Names of Certain Havens, the Poles of the Compass, whereunto the Moon coming, maketh High-water.

1. Wight, Quindborough, Southampton, Portsmouth, Isle of Wight, Spit, Kenish Knock.
2. Rochester, Malden, Aberdeen, Redban, the West end of the Nowre.
3. Gravesend, Downs, Rumney, Tenner, Silly half-tide, Blackwell.
4. Dunlee, S^t Andrews, Lisbon, S^t Lucas, Bell-Isle, Holy-Isle.
5. London, Tynmouth, Harlepool, Whitby, Amsterdam, Baitrain, Galles.
6. Bristol, Elanborough-head, Biddlington-bay, Burdeaur.
7. Scarborough quarter-tide, Lawrensh, Severn, Cockhaven, Dungaryn.
8. Newcastle, Humber, Plymouth, Salley, Dartmouth, Torbay, S^t Mallo.
9. Plymouth, Weymouth, Hull, King-Lynb, Davids-head, Antwerp.
10. Bristol, Founest at the Start.
11. Milford, Bridgewater, Land-end, Waterford, Abenmorick.
12. Portland, Peter-port, Harlew, Hague, S^t Magnus, Sound, Dublin, Lambay.
13. Pool, S^t Helen, Carnel, Orkney, Fair Isles, Kildein.
14. Needles, Laito, North and South Forelands.
15. Yarmouth, Dover, Norwich, S. John Delute, Callies-head.
16. Rye, Whinchaltes, Gorand, Thames, Rhodes.

This following Table shews the Hour and Minute of
Full-Sea, or High-Water, in any of the places
before-mentioned.

May 1698.

of the Eclipses this Year, 1698.

THERE will happen in this Year 1698 Two Solar Eclipses.

The first Eclipse of the Sun will be on *March* the 31 day, about sun-setting, which will be invisible to us in England; yet it will be in it self a great Eclipse.

The second Solar Eclipse happens on the 24th of *September*, about four of the clock in the morning, in eleven degrees of the *Celestial Equinox*, and will be a great Eclipse but not visible in England.

The 29 of *August* this year a Famous Conjunction will happen of *Jupiter* and *Mars* in 22 degrees of *Scorpio*. It portends afflictions to the Northern parts of the world, the event of which I leave to time to tell.

The beginning of the four Quarters of this Year 1698.

THEE Spring begins on the 9th day of *March*, at 12 at night.

The Summer begins the 10th of *June*, at 1 in the morning.

The Autumnal Quarter begins on the 12th day of *September*, at 9 at night.

The Winter begins the 11th day of *December*, at 6 in the morning.

Rules

Rules concerning Husbandry.

When you would Plant or Graft, consider where the wind bloweth, if it be in the South, it is very good for that purpose, but if in the North or East it is not good.

It is good to Plant or Graft generally the Moon encreasing in these Signs, *Taurus* or *Aquarius*, in the beginning of the Springs, or latter end of Harvest.

Plant Trees for continuance, when the Moon is in *Taurus*, *Leo*, or *Aquarius*.

Cut Timber to have it sound, in *December* or *January*. In the wane of the Moon in *Aquarius* or *Pisces*.

Prune Trees, & pull off the Moss in the Month of *February*. Plant Hedges, and lop Trees for Fuel, that the hedges may the sooner grow again, when the Moon is in *Aries* or *Libra*, and in her increase.

Set young Quicksets from *September* to *March*.

Remove young Trees in the last quarter of the Moon when she is in *Aries*, *Libra*, *Scorpio*, and in these Months, *September*, *November*, *February*.

Set Vines in *February*, *March*, or *September*, especially the Moon in *Aries*, *Libra*, *Scorpio*, in her increase.

Set Rose-Trees in the middle of *February*, the Moon encreasing.

Cut or Prune Trees in *March* or *April*, the Moon in *Taurus*, *Virgo*, or *Capricorn*.

Gather Fruit, as Apples, Peas, and the like, at the full Moon in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung Ground to prevent growing of Weeds, the Moon decreasing.

Sow Carrot-seeds about the end of *February*, or the beginning of *March*, the Moon encreasing. Also sow Onions and Leeks in *February* or *March*, at the wane of the Moon.

Sow Cucumbers and Melons in *February* or *March*, or *June* in a hot fair day.

Sow Parsley, Fennel, and Anisseed, in February or March at the full of the Moon.

Sow Marjoram, Violets, Thyme, Rosemary, and Lavender, in February, March, or April, in the increase of the Moon.

Sow Gilliflowers and Wall-flowers, in March or April, in the old of the Moon.

Sow Hyssop and Savory in March, when the Moon is old.

Sow double Marigolds in February or March, in the increase of the Moon.

Shear Sheep at the increase of the Moon.

The best time to Geld Cattel the Moon being in Aries, Sagittarius, or Capricorn.

Of Blood-letting, and some other Physical Observations.

IN Youth let Blood from the change to the first quarter: In Middle-age from the first quarter to the full: In Elder years from the full to the last quarter: in Old age, from the last quarter to the change. But know, that under the Age of 14 and above the Age of 40 it is not good to bleed at all.

Again, in the *Canicular*, or Dog-days, it is very hurtfull to take any Physick at all, unless there be great need: and indeed *Necessity hath no Law*: Wherefore in such a case, the disease being desperate, the cure must be adventured.

Take a Purgation when the Moon is in Trine, or Sextile aspect with Venus, decreasing in any of these three Signs, Cancer, Scorpio, or Pisces, and it will be sure to work the better, because when a moist Planet, in a moist Sign, hath such an aspect, the humours in the Body are then stirred up and down, and so the better purged out; wherefore in this case, it cannot be amiss to prepare humours by something that is laxative: and let this be done while the Moon is either in Gemini, Libra, or Aquarius.

Take a Vomic, that it may work thoroughly, when the Moon

in *Aries*, *Taurus*, or *Capricorn*; and know: that the aspects or the Moon with *Saturn*, or *Mars*, or the Moon in *Leo*, ought to be observed in the taking of Medicines.

Finally, If necessary urge no haste, these observations are expedient: for it is a plain truth, that the change of weather upon differing aspects, doth greatly change and alter mens bodies.
